

# Otometrics Education 2011

## Otometrics Training Associates

**Amanda Cerka Mroz, AuD., CCC-A** received her BA in Communicative Disorders from the University of Northern Iowa, her MA in Audiology from The University of Memphis, and her AuD from the University of Florida. She has worked in a variety of clinical settings in Illinois and Memphis. Amanda joined GN Otometrics in January 2007. Her current role is Clinical Project Liaison. In this role, she coordinates projects with customer sites, develops educational materials and programs, and collaborates with product managers.

**Karen Morris, MS, CCC-A** received her B.S from the University of Illinois and her M.S. from Purdue University. She worked as a clinical audiologist for over 20 years in a variety of settings including the VA Hospital system, ENT and neuro-otology clinics. Her extensive clinical experience includes evoked potential, vestibular assessment, cochlear implants and hearing instrument fitting. Karen joined US Otometrics in January of 2010 as the Manager of Audiology Services with a commitment to providing world class education to our customers.

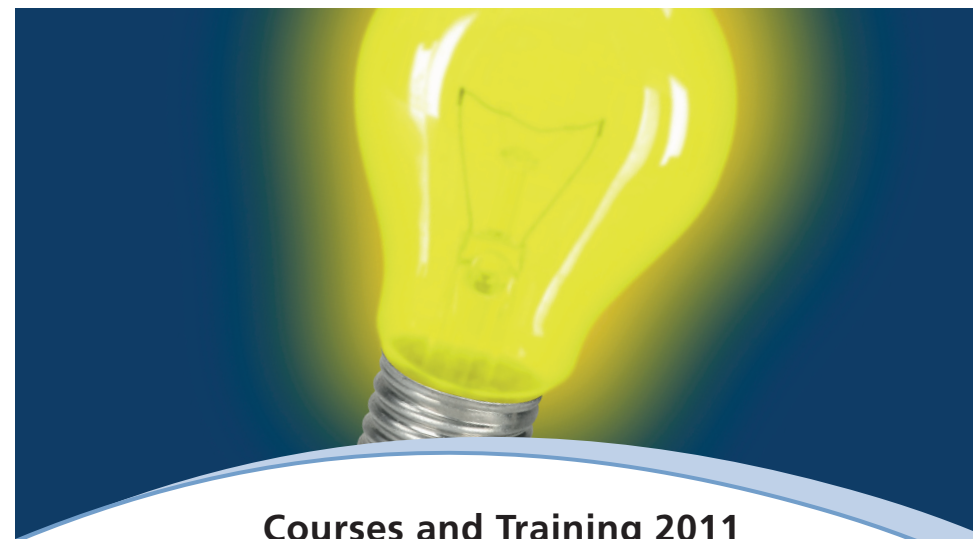

**Wendy Crumley-Welsh, MS., CCC-A** joined the US team at Otometrics in July 2006, as a professional trainer where she assisted in the development of new products by relaying end user feedback and developed education programs. In June of 2007, she was promoted to Product Manager over the ICS line of products where her focus is balance and electrophysiology. She holds a Masters in Communication Disorders specializing in Audiology from the University of Texas, Dallas.

**Kamran Barin, PhD.** is the Director of Balance Disorders Clinic at The Ohio State University Medical Center and Assistant Professor, Department of Otolaryngology-Head and Neck Surgery and Department of Speech and Hearing Science. He received his Master's and Doctorate degrees in Electrical/Biomedical Engineering from The Ohio State University. He has published and presented nationally and internationally in different areas of vestibular assessment and rehabilitation. Jill Craig, MA joined the GN Otometrics team in 2010 and is the Product Manager for Evoked Potential products. She holds a Masters degree in Audiology from the University of Tennessee and has extensive clinical experience that includes working in a neuro-otology setting. Prior to coming to Otometrics, Jill was a special instrument distributor for 12 years.
